

While MAGA Republicans want to rip away women's rights, House Democrats remain committed to standing with women. We trust women.

For a second time, we will vote to pass the Women's Health Protection Act to make the protections of Roe v. Wade the law of the land once again. House Democrats will also pass the Ensuring Women's Right to Reproductive Freedom Act, which will prevent Republicans from suing or fining women who travel across State lines to obtain an abortion.

Trusting women to make their own personal healthcare decisions is what we believe as Democrats. Controlling women and stripping away their rights is what they are as Republicans.

Democrats won't give up the fight. We stand with women. We trust women.

#### WOODY'S LEGACY LIVES ON

(Mrs. MILLER of West Virginia asked and was given permission to address the House for 1 minute.)

Mrs. MILLER of West Virginia. Mr. Speaker, I rise today to honor the World War II Medal of Honor recipient, West Virginia native Woody Williams, my dear friend.

Woody was West Virginia's hero, and he was America's hero. He truly embodied what it meant to be part of the Greatest Generation.

Today, he will lie in honor in the United States Capitol. I can think of no better way to honor Woody's life and legacy, as well as the memory of all of the World War II veterans, than allowing him this privilege.

Woody will be sorely missed, but his legacy of service, dedication, and patriotism will live on in countless lives that he touched.

#### ERASING 50 YEARS OF PRECEDENT

(Mrs. LEE of Nevada asked and was given permission to address the House for 1 minute.)

Mrs. LEE of Nevada. Mr. Speaker, I rise today as our Nation begins to grapple with the fall of Roe v. Wade.

Twenty days ago, the Supreme Court erased 50 years of precedent, ending the freedom for women to have the right to choose.

Already, the devastating effects are becoming very clear: State legislatures are criminalizing women and healthcare providers, pregnant cancer patients who cannot get the treatment they need to survive, a 10-year-old rape victim forced to travel across State lines to access the abortion she needs.

It is horrific. But make no mistake, these stories are the result of a radical Republican agenda, and these are the stories that Republicans refuse to acknowledge. We must call them out.

This is an extremely difficult, personal decision, but I trust that women can make that choice, and I will do everything in my power to protect that right to choose.

#### INFLATION HITS A 40-YEAR HIGH

(Mr. WILLIAMS of Texas asked and was given permission to address the House for 1 minute.)

Mr. WILLIAMS of Texas. Mr. Speaker, just this week June's inflation numbers hit a 40-year high at 9.1 percent, and average hourly earnings hit a new low.

Instead of providing relief for American families and job creators, Democrats are working on new tax increases. Amidst a potential economic recession and rampant inflation, this tax hike will crush Main Street America, impacting 88,000 businesses just in Texas alone.

As a small business owner for over 50 years, I can tell you that Democrats' out-of-touch policies are making it harder to operate a business. Inflation is making it more expensive to purchase goods and make ends meet, and Democrats' tax hike will further cut the operating margins, making it harder to grow and compete.

While the economy is struggling, we should be cutting taxes, not raising taxes. We must put an end to the Democrats' tax-and-spend agenda and focus on building a stronger Main Street. Bottom line is, we need businesspeople in Washington.

In God we trust.

#### HONORING DR. MAY EDWARD CHINN

(Mr. ESPAILLAT asked and was given permission to address the House for 1 minute.)

Mr. ESPAILLAT. Mr. Speaker, today I rise in honor of the life and legacy of Harlem's very own Dr. May Edward Chinn, a pioneer Black female physician in New York City.

Dr. Chinn was the first Black woman to graduate from Bellevue Hospital's Medical College in 1926, which is now known as New York University's Grossman School of Medicine. She is also the first Black woman to complete an internship at Harlem Hospital in 1928.

Dr. Chinn dedicated her life to serving others. Through her determination and hard work, she helped advance medical treatments for cancer screening that continue to save lives today.

Like many of her predecessors, Dr. Chinn persisted and persevered. I am grateful to the Harlem Cultural Archives for its research to share this story, and I am honored to share the story of one of Harlem's gems so that her work does not go unnoticed and her legacy does not remain anonymous.

#### WE MUST ADDRESS IMMIGRATION REFORM

(Mr. TONY GONZALES of Texas asked and was given permission to address the House for 1 minute.)

Mr. TONY GONZALES of Texas. Mr. Speaker, in my district a couple weeks ago there were 53 migrants found cooked to death in the back of a trailer.

The Biden border crisis has continued to spiral out of control.

If this body will not take notice now, when will it ever take notice?

Out of those 53 migrants, half of them were from Mexico, half of them were from Guatemala, and a few others were from surrounding areas.

This crisis continues to spiral. It continues to get worse. It is over 100 degrees in Texas today, and no one seems to care. No one seems to notice. Regardless of their legal status, these people are oftentimes seeking economic freedom, and yet they are dying in the back of trailers because no one in this body will address immigration reform and border security.

#### REPRODUCTIVE HEALTH FREEDOM

(Ms. BROWN of Ohio asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. BROWN of Ohio. Mr. Speaker, extremists have waged an all-out war against reproductive health freedom, and American bodies are being used as political battlegrounds to advance their radical agenda.

Since Roe v. Wade was overturned, Americans have overwhelmingly voiced their opposition, and we must not ignore them. I am determined to defend reproductive healthcare rights of millions of Americans from all racial and socioeconomic backgrounds, and I implore my colleagues to join me in the fight.

A post-Roe America sets our country's five decades of progress backward and threatens the health of marginalized communities who already face systemic barriers to accessing healthcare. Extremists have proven they will not stop until they have criminalized Americans for their right to take ownership of their reproductive health.

It is time that we make Roe the law of the land.

I urge our colleagues across the aisle to prioritize the will of the people and undo this grave injustice and protect it from being overturned in the future.

#### BIDEN'S MULTIEMPLOYER UNION BAILOUT

(Ms. FOXX asked and was given permission to address the House for 1 minute.)

Ms. FOXX. Mr. Speaker: "We turned a promise broken into a promise kept." That is what President Biden said to union members and retirees about his bailout of union-run multiemployer pension plans.

These plans need reform. But instead of reform, we got a bailout. Is this really a promise kept?

The most recent bailout will disburse \$90 billion to multiemployer pension plans. This is a short-term fix, one that fails to address the possibility of future
